

POSTOFFICE WILL BE MOVED IN A MONTH

THE NEW QUARTERS WILL BE
IN THE GOVAN BUILDING
ON MAIN STREET.

The postoffice will change its location just as soon as its new quarters can be made ready for it. A lease for ten years has just been signed by the postoffice people with Govan & Co. for the premises adjoining the Mizpah hotel, now occupied by Moore & Co.

The owners of the new quarters are going to considerable expense fitting them up for government tenancy, and by the time the postoffice is moved they will have invested about \$2500 in improvements in the way of new boxes, a new safe, etc. There will be 940 boxes installed for the service.

The postoffice has been in its present location something like five years. The premises are owned by the Tonopah Lumber company. The latter offered to reduce the present rent if the department would sign another lease, but it was felt the office should be moved nearer the business center of the town.

A bill has been presented in the California legislature to prevent discrimination again brown shell eggs. Now if they will pass a law against those "fresh" eggs with a dark brown taste they will be doing about the proper thing.

If the present legislature passes a woman suffrage bill there will be great times when the newly qualified electors have to tell their age when registering. And a register 10 or 12 years hence will prove a mighty interesting document.

A Chicago Bible society has sent this office about three columns of matter that they "would appreciate seeing in your valuable columns." There are others who would like to see their advertisements in our columns, but tatty and hot air is not sufficient diet for either printers, editors or devils.

Reno is to have an electric whistle to notify its citizens when a fire breaks out. What that burg needs most is a curfew to send the fair divorcees to their cots before the wee sma' hours.

The recent storm knocked the life out of the San Francisco aviation meet, but you haven't heard any of the producers kicking about the size of the crop meet the storm will grow.

Edna Goodrich, Nat Goodwin's eleventh wife, says she will startle Nat when the divorce suit comes. She will have to get up early and work late if she scratches his rhinoceros hide.

That congress in Washington is now making a noise like "nothing doing." Uncle Joe and the insurgents had a little tilt a few days ago, but it didn't stir up the dust.

And now Jim Jeffries says he was "poisoned" as an excuse for not "coming back" at the coon in Reno last July. These pugs are wonderful inventors of funny tales.

Sacramento has a "perfumed" burglar. Any man who would stink himself up with a bottle of such stuff ought to get 97 years on bread and water. Phew!

RESIDENCE NOT REQUIRED OF SETTLERS

One of the most important acts of Senator Nixon is a bill introduced Jan. 18, 1911, which will have a far-reaching effect upon the settlement of Nevada arid lands. The bill follows:

"A bill to provide for an enlarged homestead entry in Nevada where sufficient water suitable for domestic purposes is not obtainable upon the lands.

"Be it enacted by the senate and house of representatives of the United States of America, in congress assembled, That wherever the secretary of the interior shall find that any tracts of land in the state of Nevada subject to entry under the act "to provide for an enlarged homestead," approved Feb. 19, 1909, do not have upon them a sufficient supply of water suitable for domestic purposes as would make continuous residence upon the lands possible, he may, in his discretion, designate such tracts of land, not to exceed in the aggregate two million acres, and thereafter they shall be subject to entry under this act without the necessity of residence: Provided, That in such event the entryman on any such entry shall in good faith cultivate not less than one-eighth of the entire area of the entry during the second year, one-fourth during the third year, and one-half during the fourth and fifth years after the date of such entry, and that after entry and until final proof the entryman shall reside within such distance of said land as will enable him successfully to farm the same.
